

WILLIE CLAY FARM'S GRAZING LANDS AND BEEF CATTLE FIELD DAY

**SATURDAY,
MAY 5, 2018 • 10:00 AM
1951 PAYNE FIELD ROAD
WEST POINT, MS 39773**

If, you are dreaming of structuring or building a successful cattle operation, then, you should attend **Willie Clay Farm's Grazing Lands and Beef Cattle Field Day on Saturday, May 5, 2018**. Willie is a renowned cattle farmer who uses God's Natural Resources to support and manage his farm. Willie believes your forages should provide the needed nutrients to produce quality animals. Therefore, Willie has developed an outstanding grazing system to extend his grazing season to help reduce feeding costs and enhance profitability from the sales of cattle. Additionally, you will observe conservation practices implemented through the **Natural Resources Conservation Service's Environmental Quality Incentive Program** and other unique practices to help fulfill Willie's dreams of living in rural America. **Natural Resources Conservation Service** and **Farm Service Agency** personnel will answer questions about services offered through their agencies.

If you want to know how to start your cattle operation, then, you should attend **Willie Clay's Field Day**.

In his effort to share his knowledge with future generations, Willie invites area youth to tour his farm. For this event he will provide a farm tour for area 4-H club members and MMFA Youth Group members

Please contact one of the following individuals by Thursday, May 3, 2018, if you are planning to attend.

**Willie Clay, 662-574-2393
Carolyn Jones, 662-213-2433
BJ McClenton, 662-494-5371**

Mississippi Minority Farmers Alliance
