If you are dreaming of structuring a successful cattle operation, then, you should attend **Willie Clay Farm's Beef Cattle Processing and Marketing Field Day on Saturday, June 25, 2022**. Willie is a renowned cattle farmer who uses God's Natural Resources to support and manage his farm. His desire to operate a sustainable farm, producing quality animals to enhance profitability has led him to work with **USDA's Natural Resources Conservation Services' Environmental Quality Incentive Program** to implement conservation practices on his farm. **USDA officials** and **Mississippi State University Extension Service personnel** will be on hand to answer questions.

In his effort to share his knowledge with future generations, Willie invites area youth to tour his farm. For this event he will provide a farm tour for area 4-H Club members and MMFA Youth Group members.

TOPICS WILL INCLUDE:

*Processing Methods • Herd Evaluation
Calf Management • Board Sale Consignment*

The workshop will conclude with lunch and a Youth Ag Farm Tour!
